8230	Exford Road DS	Tier 5

- Tier One – Schemes expected to have less significant rate increases in 2026 and beyond.
- Tier Two – Schemes expected to have higher increases in 2026 with greater stability beyond 2026.
- Tier Three – Schemes expected to require up to a 25% increase in 2026 and a further increase in 2027 before returning to a greater level of rate stability thereafter.
- Tier Four – Schemes expected to require up to 25% increases in both 2026 and 2027, with greater rate stability not expected until 2028 or 2029.
- Tier Five – Schemes expected to require up to 25% increases every year for at least the next four years.

Note: The information provided, including any indicative future rates, tiering outcomes or forecast increases, is preliminary only and provided for general informational purposes. The information is based on current assumptions, methodologies and available data, and remains subject to further review, approval and change without notice.
