January 2025

Temporary disruption to Quiet Lakes bore flushing

Bore flushing of the Quiet Lakes has been temporarily stopped due to pump repairs.

What you need to know

The repair works will be carried out over one to two days during the week commencing 20 January 2025, between 7am-4pm (subject to new motor availability and weather conditions).

We will continue to undertake water quality monitoring and update the community if any significant changes are detected. During this time, you may notice changes in water levels and quality.

Please contact Melbourne Water if you observe any changes to water quality.

What to expect

- The pedestrian walkway at 58A Gladesville Boulevard will be closed for pedestrian safety. Please follow the signs.
- Beware of heavy vehicles using local roads.
- Some minor noise is expected from machinery, vehicles, equipment and workers during the works.

We will notify you if there any changes to the above works details.

Thank you for your patience and understanding as we complete these essential works.

Keep Updated

If you would like to be kept updated on Melbourne Water works, please follow the Let's Talk Patterson Lakes Community Hub, by scanning the QR code.

Keep up to date with what's happening
