

Reimagining Tarralla Creek

Phase 2 Engagement highlights

Thanks for sharing your feedback on the concept designs for Tarralla Creek. Consultation was held from 23 March to 26 April 2026. During this period:

Who we heard from

220 people got involved

How we communicated

4,122

Bulletins delivered to residents

2,670

Visitors to the Let's Talk page

43,104

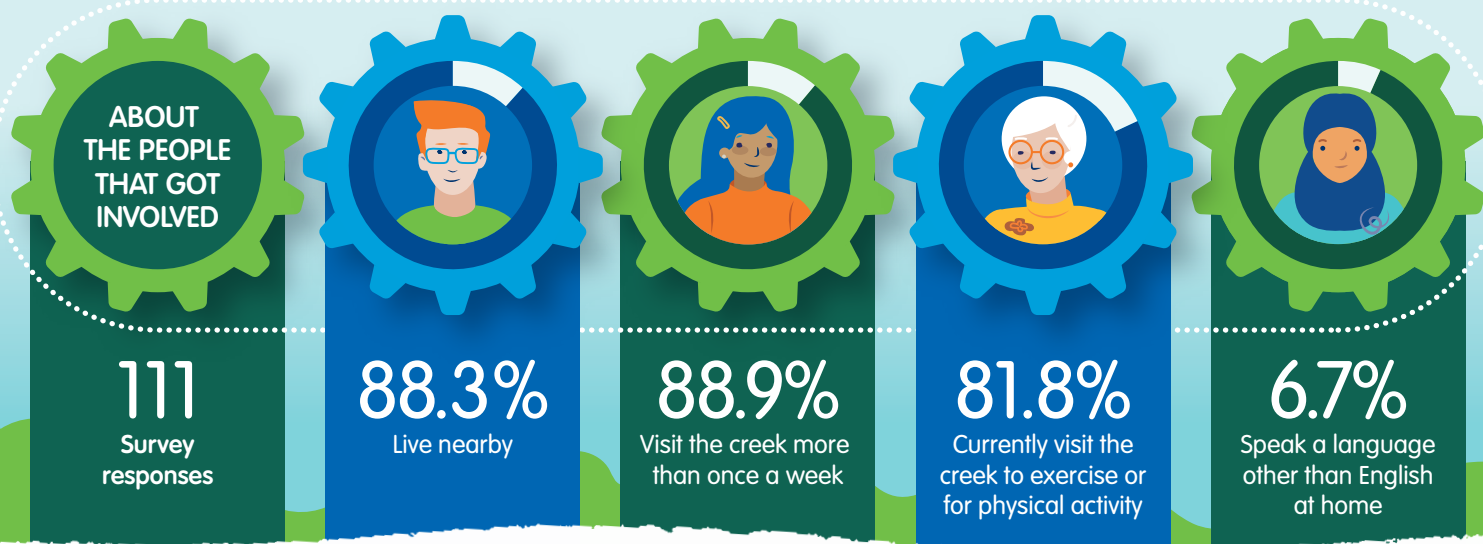

Social media reach

In-person community engagement

Digital & remote engagement

How do you rate the concept design?

What are some things you are excited about? (111 survey responses)

Is there anything else we should include? (111 survey responses)

Well maintained creek area

Keeping the area around the creek clean and well looked after.

Improved and easier access

Making it a safer and easier to walk, ride and cross.

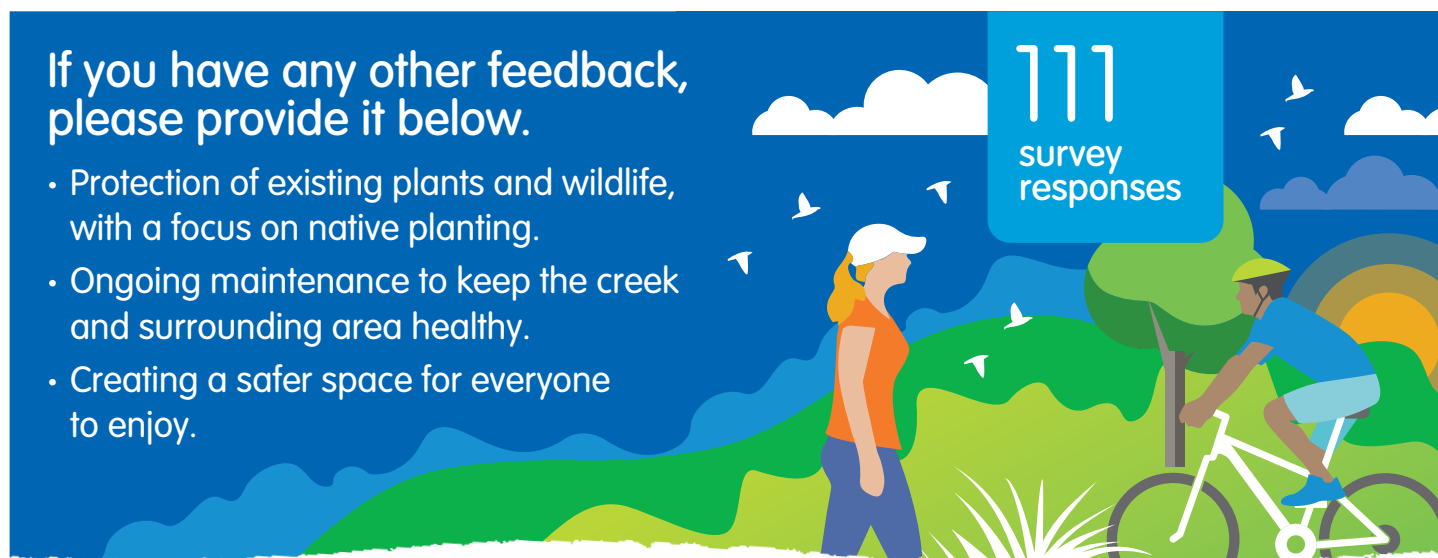

Improved and available creek spaces

Creating more places to sit, play and enjoy the creek.

If you have any other feedback, please provide it below.

- Protection of existing plants and wildlife, with a focus on native planting.
- Ongoing maintenance to keep the creek and surrounding area healthy.
- Creating a safer space for everyone to enjoy.

111 survey responses

4 key themes that emerged from all feedback received

- 1 Bring more of the creek above ground
- 2 More plants and wildlife
- 3 Better paths, crossings and connections
- 4 Build on the success of Stage 1

What's next?

Thank you to everyone who participated in Stage 2 engagement for Reimagining Tarralla Creek.

The feedback you shared has provided direction in finalising the concept design plans which have been shared on Let's Talk.

The next stage is to prepare for construction which we are planning to commence in 2027.
