Q18 Your submission

Long Text

As a concerned resident who was impacted by the floods and whose property value has been affected, I find it unacceptable that whilst Melbourne water claims this as an independent review when there is a serious conflict of interest which may bias the results of this review. More specifically the same individuals who approved the flemington flood wall hold senior positions within Melbourne Water.

As part of the review I would I ke to request that there is some hard data that specifies the volume of water that the Flemington race course area would have held at the peak of the flood, and based on the rate of water release into port Phillip bay the overall increase in flood level caused by the the Flemington race course flood wall.
