Greenvale Reservoir High Security Fence project

October/ November 2025

In Melbourne, water is essential to our way of life. Today, clean, affordable water is readily available to our homes and businesses whenever we need it. That's why at Melbourne Water we have been taking action and planning across 50-year time horizons to manage and protect this precious water for our city.

We are one of the few cities in the world with protected catchments, providing much of our drinking water. Limiting public access protects water quality at its source, meaning this water needs very little treatment.

Greenvale Reservoir High Security Fence upgrade

We are upgrading the existing fence around Greenvale Reservoir. The new fence will provide additional security for Greenvale Reservoir. The new fence will also ensure we meet our obligations and requirements for health based targets and Australian critical infrastructure. For more information about protecting our water catchments, please visit our website: www.melbournewater.com.au (search: water quality catchments)

The upgraded fence will be similar to other higher security fences around Melbourne at a variety of locations, for example schools. It will include additional security features, such as higher strength fencing materials and provision to install supplementary inward facing CCTV and intruder detection to existing devices.

Current Status

We are currently planning this project. As part of the planning process, we are encouraging local community members and stakeholders to comment on the project to upgrade the Greenvale Reservoir security fence to inform our design.

Let's Talk

Scan the QR code or visit <https://letstalk.melbournewater.com.au/greenvale/high-security-fence> to access our Let's Talk page, where you can:

- Complete a survey to provide us with your feedback and comments about the new fence
- Ask the project team a question
- Find out more information about why we need to keep our drinking water safe

- Find out more about other upcoming projects in and around Greenvale Reservoir
- Follow our Greenvale Precinct page to keep to date with current and future projects in the area, including the re-opening of Greenvale Reservoir Park.

We need your **survey feedback by 30 November 2025**.

What's next

The survey feedback will be collated after it closes on 30 November 2025. We will update the Let's Talk page to let you know what we heard during this early engagement phase.

Once the survey closes you can still use the page to interact with the project team. As the project progresses, we will provide more information and other engagement opportunities.

Keep up to date with what's happening

For more information about this project or our other activities please email MWprojects@melbournewater.com.au, call Melbourne Water on 131 722 or visit <https://letstalk.melbournewater.com.au/greenvale/high-security-fence>

Interpreter

For an interpreter, please call the Translating and Interpreting Service (TIS National) on 13 14 50
